EXPERIENCE

Full Stack Development Intern

August 2025 – Present

Voltworks Technologies Pvt Ltd

Remote

- Deployed and configured NocoBase (open-source low-code platform) for internal use, ensuring smooth setup and scalability.
- Collaborated with the team to integrate third-party tools and APIs, enhancing overall productivity and reducing manual tasks.
- Designed and implemented automated workflows using n8n, streamlining processes such as task management, notifications, and data synchronization.

Software Developer Intern

May 2025 – July 2025

ShiningCarz

Remote

- Developed responsive web and mobile applications for both users and workers, enhancing customer engagement and service management.
- Built and integrated REST APIs to connect frontend and backend, ensuring seamless data flow across platforms.
- Identified and resolved technical issues, contributing to system stability and improved user experience.

Web Development Intern

May 2024 – June 2024

Esuzo Global Technologies

- Built responsive web pages with HTML, CSS, JavaScript, and React.js.
- Collaborated with the backend team to integrate REST APIs.
- Improved accessibility and user experience across devices.

EDUCATION

Dumka Engineering College

Dec 2022 – Present

Dumka, Jharkhand

B.Tech in Computer Science and Engineering | CGPA: 6.9/10

BLNL Bohra Int College

2019 – 2021

Rajmahal, Jharkhand

Higher Secondary (12th), Science Stream

PROJECTS

Personal Portfolio Website

- Developed a dynamic, modern personal portfolio website to showcase projects, technical skills, and professional experience, utilizing responsive design for enhanced user engagement.
- Implemented a contact form with email integration for professional inquiries.
- Featured visually engaging layouts, intuitive navigation, and sections for projects, skills, and experience to maximize recruiter accessibility.

Car Wash Booking Platform

- Built booking system with notifications for various stages (created, accepted, in-progress, completed).
- Designed NotificationService with Firebase FCM and Mongoose to automate user updates.
